XXX.

Correspondence: author@uni-koeln.de

Abstract

Write a concise summary of the paper (150–250 words for APA). Include the research question, method, key results, and main conclusion. Do not cite references in the abstract.

Keywords: keyword one, keyword two, keyword three

Your Paper Title: Subtitle if Needed

Introduction

Introduce the research problem and motivate the study. Cite relevant prior work (Author & Author, 2024) and situate your contribution. Author and Author (2024) showed that ...

Method

Participants

Describe the sample (N, demographics, recruitment).

Materials and Procedure

Describe stimuli, measures, and experimental procedure. Report ethical approval if applicable.

Results

Report your findings. All statistical values should include effect sizes and confidence intervals in line with APA 7 reporting standards.

Table 1 shows the descriptive statistics. Figure 1 illustrates ...

Discussion

Interpret your results in relation to the research question. Discuss limitations and directions for future research.

Conclusion

Briefly restate the main finding and its significance.
